## DETAILS

### **Taking seminars to new heights. Escape from the boredom. Jump into an adventure.**

The Lizum 1600, quiet but centrally located, has three modernly equipped meeting rooms with HDMI projector, sound system and Clevertouch multifunctional display. It is possible to combine conference rooms I and II to hold events for up to 100 people. As an ideal supporting programme in spring, summer and autumn, there are easy to challenging hikes and mountain tours that start directly in front of our house. In winter, the seminar can be perfectly combined with a day on the slopes. Due to the special location of the hotel - directly on the ski slope - you can start with your skis from the hotel.
