DETAILS

The **300m2 loft room** is a continuous space with a **floor-to-ceiling glass front facing the lake** and a view of the mountains. The ArtLoft focuses on the **living feeling of the art salon**. Amidst an ever-changing art exhibition, you stay on Chesterfield sofas with a view of the natural backdrop and let the

occasion become an experience.

The **1960s bathhouse** is a classic modernist building. Carefully and with great consideration for the essence of the facility, new life has been breathed into this Snow White. Where long ago were the bathing rooms of beautiful bathing, now lies an art salon with a lake view and eclectic character. The salon draws its peculiarity from the past, from distant cultural circles and from the contemporary. In addition to the select **house collection of paintings, photography, design and antiques**, we curate exhibitions by internationally acclaimed artists that become the setting for your event.

As a loft, the **space is quickly adapted to suit you**. Whether for a **board meeting** in the atmosphere of a **social room** or for the **presentation of a product** with a special audience.
