DETAILS

Patscherkofel - meet up in the air

In the south of Innsbruck lies an unique alpine nature paradise - **Innsbruck's local mountain: the Patscherkofel**. In just 30 minutes you can reach the mountain station at 1,965m from the city center.

Surrounded by picturesque mountains and the largest Swiss pine population in the Alps, the Patscherkofel mountain station offers **two seminar rooms**. In the Patscherkofel seminar room there is space for up to 34 people on 50m² and in the Innsbruck seminar room for up to 18 people on 33m².

The **restaurant "Das Kofel"**, which is also located at the mountain station of Patscherkofel, takes care of your catering. Special attention is devoted to the quality and regionality of ingredients to create typical Tyrolean dishes. Menus or buffets are arranged individually with you, so that your wishes can be fulfilled depending on the type of event and the number of people. Another highlight is the **large sun terrace**, which offers a view overlooking the Inn- and Stubaital.

Make your next meeting extraordinary, enjoy the local cuisine and a unique view over the heart of the Alps.
